

You live a new life for every new language you speak.

The concept of our school

The very name of our school helps to understand our main goal. We want to help our students to be able to communicate freely in the foreign language of their interest as we believe good communication leads to good relationships. To achieve our goal we use various methods. We create relaxed atmosphere in the classroom to achieve full student participation. All the syllabuses are tailor made to the needs and abilities of our students.

Our staff

We are teachers with wide and flexible repertoire. Our teaching staff have long and varied experience in Poland and abroad. Amongst us are Native Speakers, teacher trainers/educators, school advisers and university teachers. We have worked for the Academy of Podlasie , Pedagogium College of Rehabilitation Pedagogy in Warsaw, Reymontowka and Global Volunteers (USA), Hansa Language Center (Toronto, Canada). We have taught people of different age groups and social and professional backgrounds.

What are we offering?

We are offering a full course of 50 hours of general English with elements of professional language (resocialization, law, crime, pedagogy of defense etc.). Hence our courses are for policemen, lawyers, social workers, university teachers, doctors and not only. Almost 50% of the lesson time is devoted to oral communication. We propose groups of 6-8 people. Total cost 800 PLN per person. The price includes materials for the course participants. The lessons will be held at *Pedagogium*, College of Rehabilitation Pedagogy in Warsaw, Marszałkowska 115. We plan to open an Examination Center affiliated with Pearson Language Tests.
